

Bowl of coins

This activity helps children to recognise and identify all the different coins. Support your child by drawing attention to some features of the different coins. 'This one is not round.... It has corners...!' etc.

What to do...

You will need one of each type of coin, 1p to £2, a bowl and a blindfold!

1. Put one of each type of coin in a bowl.
2. Find a partner to play with. Take turns to play.
3. Wear a blindfold. Take a coin.
4. Before removing the blindfold feel the coin and guess which coin it is.
5. Remove the blindfold. If you are correct, keep the coin.
6. Continue playing until there are only three coins left.
7. Who has kept the most coins?
8. Play again!
