

Favourite time

Telling the time is one of the hardest things we teach young children. They have to acquire the skill of reading both digital and analogue times and they also have to understand the concept. Children often know that they like a particular occasion, e.g. A favourite programme after tea, but they don't know what time this is. Help your child to write the nearest o'clock time to their favourite time on both clock and watch faces.

What to do...

What is your favourite time of day?

Why is it your favourite time?

What are you doing that makes it your favourite time?

1. Draw a picture of yourself at your favourite time of day.
2. Draw the hands on the clock and also the digital time on the digital watch.
3. Bring all your drawings into class.
