

What to do...

1. Look at the numbers on the rocket.
2. Count back from 10 to 'blast off' to send the rocket into space.
3. Try counting back from 20 to 'Blast off'!
4. With a partner, take turns in counting back to 'Blast off' from different numbers, smaller or larger than twenty!
5. Can you draw a rocket with numbers on it?

Rocket launch

This activity will help your child to count back which is an essential skill in learning to subtract or take away. Help them by choosing different numbers to count back from.
