

What to do...

1. After a dark and cold winter, it is really nice to see signs of Spring again.
2. The weather improves (usually) and trees and flowers start to grow again.
3. It still rains quite a lot, but we usually see a few rainbows to make up for that!
4. Write an acrostic poem about all your favourite things to do with Spring.
5. Start each line with the next letter in Spring.

Spring is in the air

This activity helps your child to try sounding out some more unusual words. It doesn't matter if your child cannot spell all of the words accurately. It is more important to help them hear as many of the sounds in the words as possible and to write those sounds in a plausible way, e.g. pudels instead of puddles.
