

What to do...

1. Write your first name and surname out in full – with help!
2. Practise writing your full name out 5 times on the labels provided.
3. Cut out the labels and attach them to books or some of your other belongings.
4. Ask a grown-up's permission before sticking them to anything!
5. Bring one of your labelled objects to school.

That's mine!

Children often practise writing their first name, but not their surname. Make sure your child starts each name with a capital letter followed by correctly formed lower-case letters. See the sheet provided for help with forming these letters.
